A company determines a need for additional protection from rogue devices plugging into physical ports around the building. Which of the following provides the highest degree of protection from unauthorized wired network access?

Select one:

- a. Flood guards
- b. MAC filtering
- c. Intrusion Prevention Systems
- d. 802.1x

Your answer is incorrect.

The correct answer is: 802.1x

Câu hỏi 6

Không trả lời

Đạt điểm 1,00

What is the switch called in an 802.1x configuration?

Select one:

- a. Supplicant
- b. AAA server
- c. Authenticator
- d. RADIUS server

Your answer is incorrect.

The correct answer is: Authenticator

Câu hỏi 7

Không trả lời

Đạt điểm 1,00

Which of the following is a best practice when securing a switch from physical access?

Select one:

- a. Enable access lists
- b. Disable unused ports
- c. Print baseline configuration
- d. Disable unnecessary accounts

Your answer is incorrect.

The correct answer is: Disable unused ports
