Quizz 3(24/25)

1. Instructions and memory addresses in the RAM of a computer are stored using _____

a) Parity bits
b) Binary digits
c) Octal digits
d) Decimal digits

2. Which protocol is used to receive e-mail?

a) SMTP
b) FTP
c) POP3
d) HTTP

3. … is a company that provides users with access to the internet.

a) HTTPs
b) HTTP
c) ISP
d) IP

4. If a file is stored in the cloud but you want to copy it to your computer, you'll need to _____ it.

a) print
b) bookmark
c) unload
d) download

5. What does URL stand for?

a) Undefined Restricted Learner
b) Universal Robot Location
c) Uniform Resource Locator
d) Unique Records List

6. ----------are invisible to most users and they lie between ----------, such as word processing and the hardware.

a) System softwares / softwares
b) Operating systems / applications programs

c) Operating systems / system softwares
d) System softwares / operating systems

7. Generally, when you receive an email, it will appear in your _____.

a) laptop
b) smartphone
c) message pane
d) inbox

8. Which of the following operations is not performed by a computer?

a) Input
b) Control
c) Understand
d) Output

9. In computer world, Trojan refers to----------.

a) malware
b) virus
c) worm
d) spyware

10. Which of the following languages is usually implemented with an interpreter?

a) BASIC
b) COBOL
c) PASCAL
d) Assembly

*11. In which of the following are Documents, Movies, Images, and Photographs stored?

a) File Server
b) Web Server
c) Media Server
d) Print Server

12. What is the meaning of CPU?

a) Critical Processing Unit
b) Central Printing Unit
c) Central Processing Unit
d) Crucial Processing Unit

13. When talking about the Web, "link" is an abbreviation for _____.

a) blink
b) superlink
c) hyperlink
d) chain-link

14. Which of the following is not a database management software?

a) Oracle
b) Sybase
c) COBOL
d) MySQL

15. What is Wi-Fi?

a) A wireless network connection
b) A type of software that scans for viruses
c) A type of sound card
d) An extra-wide computer case

16. Which one of the following is not a computer language?

a) LOTUS
b) JAVA
c) BASIC
d) C++

17. Which of the following is not a web browser?

a) WWW
b) Facebook
c) MOSAIC
d) Netscape Navigator

18. What is the Internet?

a) A global collection of different websites
b) A global network of computers and electronic devices
c) A type of web browser
d) A folder on your computer

19. We measure storage capacity and file sizes with----------.

a) bytes and gigabytes
b) pixels
c) RAM
d) ROM

20. Instructions and memory addresses in the RAM of a computer are stored using _____.

a) Parity Bits
b) Binary Digits
c) Octal Digits
d) Decimal Digits

21. USB Hard disk is a _____ type of storage device.

a) Auxiliary
b) Secondary
c) Primary
d) Tertiary

22. Who has the right statement?

a) "I use a password generator to create all of my passwords. I also use a password manager to keep track of them." For example: m#P52s@ap$V
b) "My password follows a simple pattern..."
c) "My password is easy to remember! It's just the beginning of my street address..."
d) "I doubt anyone could guess my password! It's my kids' names and ages..."

23. SQL is pronounced as _____.

a) secure
b) sequel
c) school
d) scale

24. Which of the following is NOT a web browser?

a) Chrome
b) Firefox
c) Windows
d) Edge

25. Which of the following is the outcome of data processing?

a) Data
b) System
c) Information
d) Software Program

Câu hỏi 1:
The largest key on the Keyboard is the shift key:
a) True
b) False*

Câu hỏi 2:
Which of the items is an input device?
a) Computer Monitor
b) Keyboard*
c) Display Board
d) Overhead Projector

Câu hỏi 3:
DNS in Internet technology stands for
a) Domain Name System*
b) Data Name System
c) Distributed Name System
d) Dynamic Name System

Câu hỏi 4:
A----------is the output printed by a computer through a printer on the paper
a) hard copy*
b) virtual copy
c) soft copy
d) sheet

Câu hỏi 5:
How many printing characters are there in ASCII?
a) 79
b) 94*
c) 85
d) 62

Câu hỏi 6:
What is a router used for?
a) Creating driving directions
b) Providing power to the computer
c) Connecting several devices to a single Internet connection*
d) Ensuring that your personal information is secure

Câu hỏi 7:
I'm not really familiar with that programming _____.
a) lingo
b) tongue
c) language

Câu hỏi 8:
A computer cannot "boot" if it does not have the
a) Assembler
b) Compiler
c) Operating System*
d) Loader

Câu hỏi 9:
If you block tracking cookies in your browser, websites will be unable to track you. False or true?
a) False*
b) True

theo dõi

Câu hỏi 10:
'Linux' is an example of a/an----------.
a) operating system*
b) application
c) software
d) browser

Câu hỏi 11:
You ---------- leave out www when typing a URL into your web browser.
a) can usually*
b) cannot
c) should never
d) have to

Câu hỏi 12:
USB Hard disk is a _____ type of storage device
a) Primary
b) Secondary*
c) Auxiliary
d) Tertiary

Câu hỏi 13:
A hyperlink means ----------.
a) None of the above
b) text connected to page*
c) coloured text
d) plain text

Câu hỏi 14:
The _____ protect systems from hackers
a) Backup
b) Firewall*
c) Antivirus
d) Hard disk

Câu hỏi 15:
The term "phishing" refers to _____.
a) accidentally sending an email to the wrong recipient
b) the process of creating a new email address
c) an email that tries to steal personal information*
d) recovering a deleted email from the trash

Câu hỏi 16:
Which one of the following is a computer language?
a) C#
b) C++
c) All of the answers mentioned*
d) JAVA

Câu hỏi 17:
Which of the followings are Network topologies?
a) BUS, TREE, LINE, STAR
b) BUS, LINE, RING, STAR
c) LINE, TREE, RING, STAR
d) BUS, TREE, RING, STAR*

Câu hỏi 18:
A hyperlink means
a) coloured text
b) text connected to page*
c) None of the above
d) plain text

Câu hỏi 19:
I've written 3 lines of _____.
a) code*
b) coding
c) program

Câu hỏi 20:
A personal computer with the Windows Operating System, Ctrl-Alt-Delete is the combination of keyboard keys that the computer user can press at the same time for----------.
a) Terminating an application task*
b) Installing the Operating System

c) Installing a new application
d) Setting the pixels and brightness of the screen

Câu hỏi 21:
Which of the following is not an Internet term?
a) Scan*
b) E-mail
c) Spam
d) Cookies

Câu hỏi 22:
USB Port stands for
a) Universal Serial BIOS Port
b) United Serial Bus Port
c) Universal Sequential Bus Port
d) Universal Serial Bus Port*

Câu hỏi 23:
An information system includes several parts----------.
a) CPU, procedures, software, hardware, data, and the Internet
b) programs, procedures, software, hardware, data, and the Internet
c) people, procedures, software, hardware, data, and the Internet*
d) people, processor, software, hardware, data, and the Internet

---

Câu hỏi 24:
Which of the items is an input device?
a) Mouse
b) All of the answers mentioned*
c) Scanner
d) Keyboard

Câu hỏi 25:
----------are messages that try to trick you into providing sensitive information.

a) malwares
b) Phishing scams*
c) email scams
d) Spam messages

Câu hỏi 1
Identify the correctly written email address below!
Select one:
a. jane at gmail dot com
b. jane.gmail@com
c. jane@gmail
d. jane@gmail.com

Câu hỏi 2
One component of the motherboard is:
Select one:
a. Processor
b. Computer Chip
c. Bios
d. Transistor

Câu hỏi 3
Virus is a computer _____
Select one:
a. Program
b. Network
c. File
d. Database

Câu hỏi 4
Unwanted advertising emails are popularly known as----------.
Select one:
a. a white hat
b. a span
c. a mail merge
d. a spam

Câu hỏi 5
Which company developed Mac Operating System?
Select one:
a. Apple
b. IBM
c. Samsung
d. Microsoft

Câu hỏi 6
To make navigating your site as simple as possible, business leaders should break content on their site into clearly defined website ----------.
Select one:
a. areas
b. programs
c. sections
d. parts

Câu hỏi 7
A website is simply a collection of interlinked documents, usually stored in the same directory on a publicly accessible computer known as a _____.
Select one:
a. Webpage
b. ISP
c. IP address
d. server

Câu hỏi 8
The main page of a Web site is known as----------.
Select one:
a. Content page
b. Home page
c. Book mark page
d. Navigator page

Câu hỏi 9
What is a browser cookie?
Select one:
a. A plug-in that allows you to view special types of web content
b. A small piece of data that tracks your preferences on different websites
c. A type of phishing scam
d. A type of food you can buy online

Câu hỏi 10
.gif is an extension of a/an----------.
Select one:
a. audio file
b. image file
c. video file
d. word file

Câu hỏi 11
I've written 3 lines of _____.
Select one:
a. program
b. coding
c. software
d. code

Câu hỏi 12
What does LCD stand for?
Select one:
a. Least Crystal Display
b. Least Color Display
c. Liquid Crystal Display
d. Liquid Colour Display

Câu hỏi 13
The main page of a Web site is known as
Select one:
a. Book mark page
b. Content page
c. Home page
d. Navigator page

Câu hỏi 14
Which of the following best describes the Internet?

Select one:
a. A network of interlinked computers
b. A communications network
c. An information network
d. All of the above

Câu hỏi 15
A computer on Internet is uniquely identified by _____
Select one:
a. IP address
b. Virtual address
c. E-mail address
d. Memory address

Câu hỏi 16
The output printed by a computer through a printer on the paper is called----------.
Select one:
a. None of the Above
b. Hard copy
c. Virtual copy
d. Soft copy

Câu hỏi 17
A connection that allows you to move easily between two computer documents or two pages on the internet is ----------.
Select one:
a. a connection link
b. a hyperlink
c. coloured text
d. a navigation

Câu hỏi 18
Which of the statement is not correct?
Select one:

a. LANs are not based in the same building.
b. LAN stands for Local Area Network
c. The Internet is a LAN.
d. WAN stands for Wireless Area Network

Câu hỏi 19
Which is an Input device
Select one:
a. None of the above
b. Printer
c. Monitor
d. Mouse

Câu hỏi 20
The _____ is a brief description of what the email is about.
Select one:
a. recipient
b. forward
c. attachment
d. subject

Câu hỏi 21
A compiler is a----------
Select one:
a. A combination of computer hardware and software
b. A software utility that translates a program written in high language into machine level language
c. A combination of computer hardware
d. A software utility that translates a program written in machine language into high level language

---

Câu hỏi 22
What does the letter "S" stand for in the Web terminology "HTTPS"
Select one:

a. Secure
b. Safe
c. Shorter
d. Short

Câu hỏi 23
A strong password ----------
Select one:
a. is one that includes personal information such as your name, birthday, user name, or email address
b. can be found in the dictionary such as English1
c. is one that can be used for different accounts
d. is one that's easy for you to remember difficult but for others to guess

---

Câu hỏi 25
Which computer program converts assembly language to machine language?
Select one:
a. Interpreter
b. Comparator
c. Assembler
d. Compiler

Câu hỏi 1
_____ is another term for junk email.
Select one:
a. Cc
b. Spam
c. Bcc
d. Malware

Câu hỏi 3
URL stands for
Select one:
a. Uniform Resource Locator
b. Uniform Reserve Locator

c. Universal Resource Locator
d. Unique Resource Locator

Câu hỏi 4
100000 in binary is equal to ---------- in decimal.
Select one:
a. 105
b. 23
c. 10,000
d. 32

Câu hỏi 5
Virus is a computer _____
Select one:
a. Program
b. Database
c. Network
d. File

Câu hỏi 6
_____, sometimes called a system board, is the main circuit board of the system unit.
Select one:
a. control panel
b. motherboard
c. father board
d. blue print

Câu hỏi 8
_____ stores the instructions for the computer to start up.
Select one:
a. Temporary memory
b. RAM

c. ROM
d. CPU

Câu hỏi 9
Which of the following features or fields can an email have?
Select one:
a. Recipients, Cc, Bcc,
b. All features mentioned
c. Attachments, Body, Subject
d. Body, Subject, Bcc, Cc

Câu hỏi 10
The output printed by a computer through a printer on the paper is called
Select one:
a. None of the Above
b. Virtual copy
c. Soft copy
d. Hard copy

Câu hỏi 11
In a personal computer with the Windows Operating System, Ctrl-Alt-Delete is the combination of keyboard keys that the computer user can press at the same time for
Select one:
a. Setting the pixels and brightness of the screen
b. (d) Both (a) and (b) above
c. Rebooting the Operating System
d. Terminating an application task

Câu hỏi 12
Generally, which language is used to construct World Wide Web pages
Select one:
a. IRC
b. HTML

c. URL
d. NIH

Câu hỏi 15
This is a password generator _____ that I have written.
Select one:
a. inscription
b. script
c. scripting

Câu hỏi 17
Which statement is correct?
Select one:
a. Read-only memory refers to memory chips storing temporary data and instructions.
b. C++ and C# are programming languages
c. RAM and ROM are programming languages
d. Most RAM retains its contents when the power is removed from the computer

---

Câu hỏi 18
Which of the following is not a mandatory component of a URL
Select one:
a. Port Number
b. Protocol
c. Resource Path
d. None of these

Câu hỏi 19
I'm not really familiar with such _____ as FORTRAN, COBOL or XML.
Select one:
a. programming languages
b. programmers
c. browsers
d. assemblers

Câu hỏi 20
A computer cannot "boot" if it does not have the----------.
Select one:
a. assembler
b. operating system
c. loader
d. compiler

Câu hỏi 21
COBOL stands for
Select one:
a. Common Block Oriented Language
b. Common Bulk Language
c. Common Business Oriented Language
d. None of the above

Câu hỏi 22
The other name for a Hard disk is:
Select one:
a. Compact Disc
b. Fixed Disk
c. Hard Drive Disk
d. Floppy Disk

Câu hỏi 24
USB Port stands for----------
Select one:
a. United Serial Bus Port
b. Universal Serial BIOS Port
c. Universal Serial Bus Port
d. Universal Sequential Bus Por

Câu hỏi 1:
A packet of information that travels between a browser and the web server is known as
a. Spyware
b. Malware
c. Cookie*
d. Adware

Câu hỏi 2:
Which of the following languages is usually implemented with an interpreter
a. Assembly
b. COBOL
c. BASIC
d. PASCAL

Câu hỏi 3:
What are browser tabs mainly used for?
a. Opening multiple webpages in the same browser window*
b. Viewing two webpages side-by-side

c. Ensuring that your personal information cannot be seen by hackers
d. Selecting a Wi-Fi network to connect to

Câu hỏi 4:
1024 bit is equal to how many byte
a. 1 Byte
b. 64 Byte
c. 128 Byte*
d. 32 Byte

Câu hỏi 5:
Most of my experience is in back-_____ programming language LIKE JAVA, PYTHON, NET which refer to the server side of an application
a. to-front
b. to-back
c. side
d. end*

Câu hỏi 7:
Which of the following is used to store large amount of data
a. Cache memory
b. Primary memory
c. Auxiliary storage*
d. Random access memory

Câu hỏi 8:
Generally, which language is used to construct World Wide Web pages----------
a. IRC
b. URL
c. NIH
d. HTML*

Câu hỏi 9:
A connection from one HTML to another HTML document is called
a. Connecting Link
b. All of these
c. Icon
d. Hyper Link*

Câu hỏi 10:
The _____ protects systems from hackers.
a. Antivirus
b. Firewall*
c. Backup
d. Black hat

Câu hỏi 11:
---------- is a type of software development where any programmers can develop or fix bugs in the software.
a. Open source*
b. Source code
c. Free software
d. Trial software

Câu hỏi 12:
To see if a website is using a secure connection, what should you look for?
a. A star icon to the right of the URL
b. A plus sign (+) to the right of the tab
c. A clock icon to the left of the URL
d. "https" at the very beginning of the URL*

Câu hỏi 13:
Some high level computer languages are…….
a. Pascal, Java, XML
b. Java, XML, machine

c. Pascal, Java, machine
d. Pascal, Java, assembly

Câu hỏi 14:
When talking about the Web, "link" is an abbreviation for _____.
a. superlink
b. blink
c. hyperlink*
d. chain-link

Câu hỏi 15:
Which of the items is an input device?
a. Computer Monitor
b. Keyboard*
c. Display Board
d. Overhead Projector

Câu hỏi 16:
Which of the following can you do online?
a. Pay bills and manage bank accounts
b. Watch movies and TV shows
c. Use search engines to find information
d. All the answers mentioned*

Câu hỏi 17:
I don't have a lot of experience in _____-oriented programming languages like Java.
a. code
b. program
c. object*
d. subject

Câu hỏi 19:
To make navigating your site as simple as possible, business leaders should break content on their site into clearly defined website ----------.
a. sections*
b. parts
c. areas
d. programs

Câu hỏi 20:
Which one of the following represents the binary equivalent of the decimal number 23
a. 10011
b. 11011
c. 10111*
d. 01011

Câu hỏi 21:
The 8 bits such as 00110100 group together as a unit called a ----------.
a. byte*
b. pie
c. pixel
d. code

Câu hỏi 23:
Which statement is correct?
a. Read-only memory refers to memory chips storing temporary data and instructions.
b. RAM and ROM are programming languages
c. Most RAM retains its contents when the power is removed from the computer
d. C++ and C# are programming languages'*

Câu hỏi 24:
The largest key on the Keyboard is the shift key:
a. True
b. False*
