Qizz2(23/25)

1. The most widely used input device is the _____?

mouse

modem

keyboard

monitor

2. A series of instructions that tells a computer what to do and how to do it is called a _____

program

command

processor

user response

3. This computer is a multiprocessing computer system that is smaller and slower than a mainframe:

Supercomputer

Personal Computer

Minicomputer

4. Devices that let the computer communicate with you?

print

output

input

type

5. Which of the following storage devices has the highest capacity?

Blu-ray Disc

Hard Drive

DVD

Floppy Disk

6. What does HTTP stand for?

High Text Transfer Protocol

High Transfer Text Protocol

Hyper Text Transmission Protocol

Hyper Text Transfer Protocol

7. Every component of your computer is either _____?

input devices or output devices

software or CPU/RAM

hardware or software

application software or system software

8. Which of the following is needed for sound recording?

- a) Speaker
- b) Microphone *
- c) Talker
- d) Mouse

9. What is the main purpose of device drivers?

- a) To allow the operating system to communicate with hardware
- b) Enhance graphics
- c) Increase processing speed
- d) Protect against malware

10. Weather forecasting can be done using ___.

- a) Supercomputer
- b) PC
- c) Megacomputer
- d) All of these

11. Codes consisting of lines of varying widths or lengths that are computer-readable are known as ____?

a) a bar code *

b) magnetic tape

c) ASCII code

d) OCR scanner

12. In a computer most processing takes place in _____

a) CPU *

b) Motherboard

c) RAM

d) Memory

13. What is output?

a) What the processor gives to the user *

b) What the user gives to the processor

c) What the processor takes from the user

d) What the processor gets from the user

14. The main circuit-board of the system unit is the _____

a) Motherboard *

b) Computer program

c) Control unit

d) RAM

15. Which of the following is the equipment which holds the screen of a computer?

a) Desktop

b) Monitor *

c) Video

d) Modem

16. Laptop that we used is a type of which of these categories?

a) Personal Computer

b) Microcomputer

c) Workstation

d) All of these

17. Which of the following is a secondary storage device?

a) Floppy Disk *

b) Cache Memory

c) ROM

d) RAM

18. Which of these does not support multiple users at the same time?

a) Workstation computer *

b) Mainframe

c) Minicomputer

d) None of these

19. _____computers are lower to mainframe computers in terms of speed and storage capacity.

a) Mini *

b) Hybrid

c) Super

d) Mainframes

20. Which of the following is not a part of the computer system?

a) Network *

b) BIOS

c) RAM

d) ROM

21. The main system board of a computer is called the _____?

a) Motherboard *

b) Processor

c) Integrated circuit

d) Microchip

22. What does the term “booting” refer to?

a) Starting the computer *

b) Upgrading software

c) Shutting down

d) Running applications

23. In a computer, most of the processing takes place in _____

a) CPU *

b) Motherboard

c) RAM

d) Memory

24. Which of these is a single user computer with huge RAM and added graphics?

a) Workstation *

b) PC

c) Supercomputer

d) All of these

25. What is the function of the ALU?

a) Perform arithmetic and logic operations *

b) Manage system resources

c) Store data

d) Control operations

Câu hỏi 1:
The most common method of entering text and numerical data into a computer system is through the use of a _____?
a) plotter
b) printer
c) scanner
d) *keyboard

Câu hỏi 2:
What is the name given to huge computers with large computation speeds?
a) *Supercomputer
b) None of these
c) Server computer
d) Workstation computer

Câu hỏi 3:
What does RAM stand for?
a) Readable Access Memory
b) Read Access Memory
c) Rapid Access Memory
d) *Random Access Memory

Câu hỏi 4:
Which is the part of the computer system that one can physically touch?
a) data
b) software
c) *hardware
d) operating system

Câu hỏi 5:
Which of the following is a primary memory?
a) Hard Disk
b) *RAM

c) USB Drive
d) CD-ROM

Câu hỏi 6:
The term _____ refers to data storage systems that make it possible for a computer or electronic device to store and retrieve data.
a) retrieval technology
b) *storage technology
c) input technology
d) output technology

Câu hỏi 7:
Computer _____ is whatever is typed, submitted, or transmitted to a computer system?
a) data
b) circuitry
c) output
d) *input

Câu hỏi 8:
Which of the following groups consist of only input devices?
a) Mouse, Keyboard, Plotter
b) *Mouse, Keyboard, Scanner
c) Mouse, Keyboard, Printer
d) Mouse, Keyboard, Monitor

Câu hỏi 9:
The term used to define all input and output devices in a computer system is _____?
a) Shared resources
b) Monitor
c) Software
d) *Hardware

Câu hỏi 10:
For seeing the output, you use ____
a) Scanner
b) Mouse
c) *Monitor
d) Keyboard

Câu hỏi 11:
Which of the following is a type of malware?
a) Antivirus
b) Firewall
c) *Trojan Horse
d) Operating System

Câu hỏi 12:
Which of the following represents a high-level programming language?
a) Assembly
b) *C
c) Machine Code
d) Binary

Câu hỏi 13:
What is cloud computing?
a) Storing data on local hard drives
b) *Storing and accessing data over the internet
c) Using servers for processing data
d) Backing up data on external drives

Câu hỏi 14:
Which type of software is used to manage a database?
a) Operating system
b) System software
c) *Database management system
d) Application software

Câu hỏi 15:
What is a 'bit'?
a) *A basic unit of data in computing
b) A hardware component
c) A programming language
d) A type of software

Câu hỏi 16:
The main circuit-board of the system unit is the___?
a) *motherboard
b) computer program
c) RAM
d) control unit

Câu hỏi 17:
The three main parts of the processor are _____.
a) ALU, Control Unit and RAM
b) Control Unit, Registers and RAM
c) Cache, Control Unit and Registers
d) *ALU, Control Unit and Registers

Câu hỏi 18:
Using output devices one can _____
a) *view or print data
b) store data
c) input data
d) scan data

Câu hỏi 19:
The primary output device for computers is a _____?
a) *video monitor
b) mouse

c) Keyboard
d) Printer

Câu hỏi 20:
Which of the following can input graphical images and pictures for a computer?
a) Mouse
b) Printer
c) *Scanner
d) Plotter

Câu hỏi 21:
What is referred to as the “brain” of the computer?
a) Graphics Card
b) *CPU
c) Memory
d) Hard Drive

Câu hỏi 22:
What does CPU stand for?
a) Centralized Processing Unit
b) Central Process Unit
c) *Central Processing Unit
d) Computer Personal Unit

Câu hỏi 23:
The three main parts of the processor are _____.
a) ALU, CPU, Register
b) CPU, Control Unit and Registers
c) CPU, monitor, ROM
d) *ALU, Control Unit and Registers

Câu hỏi 24:
The name of the computers brain is _____?

a) monitor
b) *CPU
c) hardware
d) Byte

Câu hỏi 25:
The _____ is responsible for performing calculations and contains decision-making mechanisms?
a) *Arithmetic and Logic Unit
b) Central Processing Unit
c) Output Unit
d) Memory Unit

Mainframe computers can handle hundreds or thousands of users simultaneously. TRUE or FALSE?

Câu hỏi 8Select one:

TRUE

FALSE

Which of the following is classified as volatile memory?

Câu hỏi 12Select one:

Hard Drive

Flash Memory

ROM

RAM

What does SSD stand for?

Câu hỏi 13Select one:

Solid Storage Device

Simple Storage Device

Solid State Drive

Secure Storage Drive

The mouse _____ usually appears in the shape of an arrow?

Câu hỏi 24Select one:

meter

indicator

marker

pointer

Supercomputers are used extensively in the scientific field for research and simulations.

Câu hỏi 25Select one:

True

False

Which of these is a feature of minicomputer?

Câu hỏi 7Select one:

It has low weight

Support multiple users

All of these

It can be carried anywhere

_____ devices convert human-understandable data and programs into a form that the computer can process?

Câu hỏi 11Select one:

Output

Printing

Input

Solid State
